

Hybrid Air Annexe
- Care & Instructions -

WELCOME!

Congratulations on the purchase of your OPUS Hybrid Air Annexe.

INSTALLING

The OPUS Hybrid Air Annexe is supplied with everything you need to mount it to your OP13 or OP15. The following steps will run you through how to set up the annexe.

Step 1: Attach draft skirt to the press studs on your OP13/OP15 (fig. 1)

Step 2: Next install the Velcro strips into the front and rear sail tracks (fig. 2, fig. 3)

Step 3: Lay out the annexe in the correct orientation, with the doors facing away from the OP13/OP15. (Fig. 4)

Step 4: Next you need to thread the sail rope into the sail track at the top of the OP13/OP15 roof. You will know the correct part of the annexe is threaded through if you do not see the windows at the top of the annexe. (Fig. 5)

if you do see the windows you will need to unthread it as that part needs to be threaded through the awning sail track.

Step 5: Next you will need to do up all 5 air valves at the front of the annexe. Once all are secure then you can use the supplied 12v pump to inflate the annexe. (Fig. 6, Fig. 7)

Step 6: Once inflated you may need to position the air beams onto the Velcro squares to ensure the annexe keeps a strong structure.

Step 7: Finally Velcro the sides up and attach the floor to the draft skirts and annexe with the Velcro. (Fig. 8)

UNINSTALLING

Step 1: Pack away floor, draft skirts, and Velcro strips.

Step 2: Next release all 5 air valves to deflate the annexe.

Step 3: Remove annexe from sail tracks and roll up into carry bag

Care & Safety

CLEANING

- Clean with lukewarm water and soft brush or sponge. Do not use hard soaps and or chemical detergents.
- Do not use or expose to petrol chemicals.
- Allow to fully dry before storing.

STORAGE

Conditions may require you store your OPUS Hybrid Air Annexe wet. It is vital that at the earliest opportunity the Annexe is unpacked and allowed to fully dry before repacking. This will help eliminate potential mould or the breakdown of the fabric structure due to unnecessary wear.

WARRANTY

The OPUS Hybrid Air Annexe is covered by a 3-year warranty.

To register your warranty please visit:

purpleline.com.au/product-registration-form/

EXCLUSIONS

The above warranty is limited to manufacturing and material defects. Not included are damage caused by misuse or abuse, wear and tear, condensation, extreme weather, accidents, incorrect set up, damage caused by mould, insects, animals or children. This also excludes broken poles and damage caused by a jammed, snagged zipper or excessive force applied to zipper causing failure.

CONSUMER RIGHTS

Purple Line goods come with guarantees that cannot be excluded under Australian law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have goods repaired or replaced if the goods fail to be of acceptable quality and failure does not amount to a major failure.

MAKING A CLAIM

To make a claim in relation to the above manufacturer warranty, please ensure that you have retained your proof of purchase then email us at enquiries@purpleline.com.au stating the nature of your claim and we will be in touch with you as quickly as possible.
