

OP4 BLOCKOUT TENT
- CARE INSTRUCTIONS -

- Always make sure that your tent is 100% free of any moisture before storing. Never pack-away a wet tent.
- Be sure to take care that the zippers are not over-stressed. Too much tension on them could cause them to break or separate from the tent.
- In the case your tent requires cleaning, use a mild detergent and hand wash ONLY. Once clean, line dry out of the sun.
